

**Although the Town of Plainfield does not issue fence permits, here are some things you will want to keep in mind:**

1. Some Homeowners Associations do have stricter fence regulations and require pre-approval. Check with yours prior to construction.
2. The fence can only be built on your side of the property line. When in question, have the property surveyed.
3. Fences placed in utility easements may be subject to removal without compensation by the easement holder if required.
4. Fences cannot block either natural or man-made drainage patterns.

## How tall can my fence be?

- Six (6) feet in height above grade in a required Side or Rear Yard
- Four (4) feet in height above grade in a required Front Yard.
- Two and one-half (2 ½ ) in height above grade in a Vision Clearance Area (see illustration below)
